

# SCHOOL ZONE SAFETY WORKSHEET

1. One of the keys to preventing injuries is to establish \_\_\_\_\_ standards and develop training so the behavior of drivers and pedestrians can be modified.
2. *Circle best answer.* Female /Male children are more often injured in school zone accidents.
3. A bright orange reflectorized vest and a STOP paddle are the primary tools to get a driver's attention and cooperation. TRUE/FALSE
4. As a crossing guard, you should be familiar with the vehicle/traffic code. TRUE/FALSE
5. Flashing lights and cones should only be in use when children are going to or from school. This will \_\_\_\_\_ delay to motorists and develop better driver compliance.
6. The proper procedure for getting children across the street safely is to look left, right, left; raise STOP paddle; then once traffic has stopped, proceed to center and motion for children to cross. TRUE/FALSE
7. Manage gaps in traffic using the \_\_\_\_\_ and enter the crosswalk after all traffic has stopped.
8. *Circle best answer.* To ensure driver awareness, eye contact from guard to driver is essential/  
not important at all.
9. Be courteous to pedestrians and drivers to establish compliance and \_\_\_\_\_.
10. Training children in \_\_\_\_\_ crossing behavior will help them cross other roads safely.
